## **Futura Safety Flexo Plate Cutter Series 2**

Precision Bevel & Vertical Cuts Safely and Accurately

# Foster Futura Safety Flexo Plate Cutter Series 2

## No More Remakes or Injuries — Safety and Accuracy

Designed specifically for cutting flexo printing plates, this Keencut product eliminates the onerous task of hand beveling, minimizes the risk of injury from remakes and bad cuts. Perfectly designed for cutting and trimming floor graphics or other materials requiring seamless splices.

The Keencut Futura Safety Flexo Plate Cutter yields incredible cost savings simply by eliminating manual errors. No more inaccurate hand-cut bevels that result in gaps between splices. No more filling and taping hand cuts, creating stress points that can release during a press run. No more plates lifting off the printing cylinder and destroying themselves.

### FUTURA SAFETY FLEXO PLATE CUTTER TIME SAVING FEATURES

**ERGONOMICALLY DESIGNED FUTURA CUTTING HEAD** makes it easy to use over long periods. And it is comfortable for left- or right-handed users.

**NEW SITE LINE STRIP** shows operators exactly where the cut line is going to be which reduces the time to position the plate and cutting errors.

**NEW 5-DEGREE UNDERCUT** gives tighter joins when fixed onto the cylinder.

**HIGH PERFORMANCE SELF-ALIGNING STEEL ROLLER BEARINGS** operate on twin steel tracks. Designed for a lifetime of straight, accurate, silent cutting. Can handle dense, hard-to-cut materials with no flex, side play or hooks.

#### WHAT CUSTOMERS ARE SAYING:

"Our internal cost is approximately \$100/plate. With the Futura Safety Flexo Plate Cutter, I would estimate a time reduction of 30 seconds per plate. It has reduced cutting errors by approximately 10% due to better visualization of the plate cut mark position, via the site line. This ensures we don't have to order a back-up plate for our full bleed butt cut plates. It has reduced the number of plate issues on press by 5%."

Andy White, Pollard Banknote Limited, Winnipeg, MB, Canada

#### EACH CUTTER INCLUDES:

- Medium Duty Blades (100)
- Tech D .012 Blades (15)
- Tech S .012 Blades (15)
- Tech S .015 Blades (15)
- Full length cutting mat

#### ADJUSTABLE SET SCREW

To ensure straight clean cuts, the Adjustable Set Screw allows you to set the blade depth a fraction of an inch deeper than the thickness of the plate. If the blade is extended too far, the edge will scallop. For better gripping action, we suggest pushing the beveled edge cutting head with the palm of your hand versus pulling it with your fingers.

### SPECS

#### FOR NARROW WEB PRINTERS:

MODEL #	CUT SIZE	OVERALL SIZE
61906	18"	27 ½"W x 15 ½"D
61908	32"	41 ¼"W x 15 ½"D

#### FOR WIDE WEB PRINTERS:

MODEL #	CUT SIZE	OVERALL SIZE
61912	50"	59 ½"W x 15 ½"D
61916	64"	73 ½"W x 15 ½"D
61920	84"	94 ½"W x 15 ½"D

#### FLEXO BLADE CUTTING DEPTHS

Bevel blade cuts flexo plates up to .125" thick  
Vertical blade cuts flexo plates up to .250" thick.

#### UNPRECEDENTED WARRANTY:

5-year general warranty on all parts (except consumables such as blades, cutting mats and site-line strips) 20-year warranty on the bearings used in the cutting head.

# Futura Safety Flexo Plate Cutter Series 2

## A blade for every need

The most commonly used blades are Standard utility blades. Also included are Tech-S and Tech-D blades which may work better on the polymer you are using. For example- Tech-S blades are designed for shaving fine slivers. The flat side holds the plate in position while the angle side pushes the scrap away from the plate.

### SPECS

#### FOR NARROW WEB PRINTERS:

MODEL #	CUT SIZE	OVERALL SIZE
61906	18"	27 1/2"W x 15 1/2"D
61908	32"	41 1/4"W x 15 1/2"D

#### FOR WIDE WEB PRINTERS:

MODEL #	CUT SIZE	OVERALL SIZE
61912	50"	59 1/2"W x 15 1/2"D
61916	64"	73 1/2"W x 15 1/2"D
61920	84"	94 1/2"W x 15 1/2"D

### ADDITIONAL BLADES

MODEL #	DESCRIPTION
69108	Medium Duty Blades (100)
69119	Superior Quality Blades (100)
61199	Tech S .012 Blades (100)

MODEL #	DESCRIPTION
69137	Tech S .015 Blades (100)
69136	Tech D .012 Blades (100)
69135	Tech D .015 Blades (100)

## Exact, Safe Cuts

### LIFT AND HOLD SYSTEM

MODEL #61832

Raises or lowers the cutter bar and frees both hands for setting up projects.

### ADD THE PROTEUS WORK BENCH FOR A COMPLETE WORK AREA

The Proteus Workbench combined with the Futura Flexo Plate Cutter Series 2 creates the ultimate precision cutting table. Modular design can be expanded as needed. Easy to assemble. Worktop not included.

MODEL #	OVERALL SIZE (LXWXH)
60937	78 3/4" x 48" x 35 1/2"
60938	98 1/2" x 48" x 35 1/2"
60939	118" x 48" x 35 1/2"
60940	137 3/4" x 48" x 35 1/2"
60941	157 1/2" x 48" x 35 1/2"
